Holiness Nwagboso

AI Automation | Websites | Motion Graphics | Admin Support

I build n8n and Python workflows, then make the video that shows how.

PROFILE

Automation builder with 7+ years of admin and operations experience. I build n8n and Python workflows for reports, request routing and alerts, plus business websites and motion-graphics videos. B.Sc. in Architecture. Remote-ready.

EXPERIENCE

Automation Builder, Websites and Motion Graphics, Automate with Bibo (freelance, remote) | 2026 to now

- Build n8n and Python automations for reports, request sorting and alerts, with AI steps using LangChain, OpenRouter, Claude and Gemini.
- Connect APIs, Google Sheets, Gmail and Telegram so the right person gets the right message on time.
- Build websites and motion-graphics adverts and explainer videos for businesses; find clients by direct outreach.

Global Coordinator and Logistics Manager, Naza Agape Foundation | 2019 to now

- Coordinate programmes between the founder, team, partners and volunteers; started in 2019 as Personal Assistant to the Founder.
- Plan events and outreach, manage partnerships and social media, keep records and reports.

Architectural Intern, Dori Construction Company | 2025

- Worked under the lead architect on a 13-storey hotel project: drawings, design details and documents.

Network Marketing, self-employed, customer relations and sales | 2022

- Built a customer base through referrals and follow-up; handled orders and met sales targets.

PROJECTS

- **Salon AI receptionist:** answers customers 24/7, books and logs appointments.
- **Invoice robot:** reads invoices, catches duplicates and missing details.
- **Staff handbook bot:** answers staff questions from the company handbook.
- **Instagram comment-to-DM bot:** comment a keyword, get the guide in DMs.
- **Solana coin scanner:** every 3 min, 9 safety checks, Telegram alerts.
- **Customer request hub:** form, AI reply draft, Telegram approval.

All run 24/7 on my self-hosted cloud server, with AI quality checks.

WEBSITES

Business websites: a skincare online shop (Nigeria and Ghana), a church website, my portfolio and a foundation founder's site.

MOTION GRAPHICS AND VIDEO

Brand adverts for client businesses and explainer videos of my workflows, built in 3D (Blender) and code.

AI-ASSISTED SERVICES

Documents, spreadsheets, slide decks, social posts and research, done fast and checked by me.

SKILLS

Automation and AI: n8n, AI agents, Claude API, LangChain, OpenRouter, APIs and webhooks, Telegram bots, Google Sheets, Claude Code

Coding, websites and motion: Python, HTML and CSS, Blender, motion graphics (code)

Office and admin: MS Word, Google Docs, Canva, Trello, Notion, Excel (basic)

EDUCATION AND TRAINING

B.Sc. Architecture, University of Ilorin, Kwara State | 2021 to 2025

AI Automation Programme, TechCrush (n8n, Python, LangChain) | 2026

LANGUAGES

English (fluent), Igbo (basic). References available on request.
